

Sunder rup passion projects is something for the people who are very passionate to learn and also wish to give something back to the society.

Person of any age can join this program. Show your passion. Take initiative, work on it, learn while doing work and contribute to the nation.

You can do something very special in the field of education, sports, environment or anything else of your choice which can be beneficial to the people and the society.

Participants will get certification and cash prize based on their efforts put or results brings

All About Passion Projects:

A Passion Project is a self-chosen project in which a student explores something they are genuinely interested in, learns new skills, and creates something meaningful. It goes beyond regular textbook learning and encourages creativity, curiosity, independence and practical application.

### Main Objectives

Encourage students to discover their interests and talents.

Develop creativity and innovative thinking.

Improve research and problem-solving skills.

Build confidence and communication skills.

Connect classroom learning with real-life

situations.

Encourage students to take ownership of their learning.

Develop teamwork, leadership and presentation skills.
